DROWNING .- A freedman, name unknown, was seen yesterday morning to put off from the Laurens street wharf in a small dug out. When near the light ship the cance was seen to lean over and finally upset. Assistance was promptly rendered, but the body was not recovered.

Mr. B. DONGHER, of the Postoffice Literary Emporium, has our thanks for late copies of the Staats Zeitung, the New York World, Independent, and Ledger. Mr. D. always keeps on hand a large assortment of all the latest publications. THE CELEBRATION IN AUGUSTA.—The irrepres-

sible firemen of Augusta turned out in force on Thursday afternoon to assist at the christening of the new steam engine of the Gazette. Speeches were made by Capt. FOSTER and the Hon. W. W. HILLIARD, and the machine was solemnly named "John Foster." The engine was beautifully decorated with vines and flowers, and stood the trying ordeal with firmness.

QLICK TIME AND THROUGH FREIGHTS.—The Nation al Republican, of Augusta, says it is stated that nin e car loads of freight, which arrived at Charlesto u on Tuesday by the Manhattan, and which left New York at 4 P. M., on Saturday, left Charleston for Augusta by the freight train on Tuesday night. Five car loads for Augusta arrived here Wednesda v morning, and four carloads for Atlanta and beyon'd arrived at Atlanta on Wednesday night.

A NEW SEGAR STORE .- Mr. I. LORENTZ, favorably known in connection with the cheap segar store, has been compelled by the increase of his business to open a branch establishment at No. 298 King street, near Wentworth. The new stand is in many respects the counterpart of the old, and the business will be conducted on the same principles. Mr. LORENTZ has a large run of custom, both retail and wholesale, and was compelled to increase his facilities in order to accommadate

THE COTTON MENDING BUSINESS.—In our recen notice of this new business, and the gentlemen who propose conducting it, we neglected to state that they de ign purchasing from the factor or merchant their loose samples of cotton, and rebaling and selling them. Mr. Robinson has made every preparation for the management of this business, and has received considerable encouragement from the cotton factors. Both Mr. Robinson and the partners connected with him have determined to e their efforts successi 'dl, and, by a strict attention to their business, to . nerit the patronage of the community. We refer to their advertisement which appear in another column of our paper.

THE FIRST "MIXED" JURY IN NO 2TH CAROLINA. The Wilmington Journal of Thursday says: "Coroner J. C. Wood held an inquest, yesterday afternoon, over the body of Warren Hill, the negro who was killed by the train on the Wilmington and Weldon Railroad, near the scene of the accident on Wednesday night.

'The Jury were summoned in accordance with Paragraph IL General Orders No. 32, from District Headquarters, and the names of an equal number of whites and blacks were placed in the hat. In the drawing, however, the whites predominated, and a 'speckled' Jury were empanelled, eight whites and four blacks.

"After viewing the corpse, and hearing the testimony of witnesses, the Jury returned a verdict "that the deceased came to his | death by being accidentally run over by a train on the Wilmington and Weldon Railroad while it was proceeding backward up the road."

A TEIP TO THE TROPICS.—It would require strong temptation to induce any one one who has experienced the heat of the past few weeks to visit any clime where the thermometer ranges higher than in this city. Knowing these facts it is not our intent on to solvise a more extended trip than a short Tide on Rutledge Avenue. With the street cars as a convey anos this will be neither fatiguing or oppressive, and those persons who have read the glowing accounts of tropical vegetation can have an opportunit v of testing the truth of these statements by inspecting a simon pure banana tree, which is now bearing fruit. This curiosity is in the garden of Hon . Gro. [A. TRENHOLM, and can be easily seen from ta'te passing cars as it is quite near the main entrane. The tree is about eight feet in height, but parta hes more of the nature of a shrub, as the leaves are few in number although quite long and wide; the heavy winds have split and torn these and they have no w assumed a fringelike appearance. The fruit haugs in clusters and is covered with a purple sheath, The tree is quite a curiosity in this city, but its successful growth is a proof that our soil and climate are adapted to

Fast Dax.—The Rishops of the Episcopa, Methodist Church make the following recommendation for a day of fasting, humiliation and prayer, which is extracted from their Address :

is extracted from their Address:

We propose that Friday, 16th of August next, be observed in all our churches as a day of fasting, humiliation and prayer—that God would be pleased to pour cut His Spirit upon all flesh; that He would show us our sins and help us, by a true repentance, to turn away from them; that He would send forth laborers into His harvest, who may serve Him more faithfully and efficiently than we have done; that He would build up the church and comfort her waste places; that He would grant us all the blessings, temporal and spiritual, we have need of. And we farther propose that this day of special fasting and prayer be preceeded, wherever practicable, by religious exercises begun on the previous Sabbath and continued day by day till the Sabbath following.

And now, brethren, we commend you to God and to the word of His Grace, which is able to build you up, and to give you an inheritance among all them which is sanotified.

BOUTHERN MANUFACTORIES .-

"Oh wad some power the giftie gie us, To see ourselves as others see us."

The Herald contains the following sensible advice to Northern capitalists, but it is greatly applicable to the moneyed men of our own section who should be the first to put their shoulders to

the wheel. "We think it strange that we do not hear of extensive investments, powerful companies and great schemes for the introduction of manufacturing establishments in our Southern States, from cotton and woollen factories, from iron and steel, to leather, boots and shoes and farming implements. The South has not only the finest region in the world (for cotton culture, but the best facilities and the greatest advantages for cotton manufactures to any extent. From its generous West, and vastly larger profits from manufactures of all kinds than can be made in New England or Old England if they only go properly into the business. To men of capital looking about for investments our Southern States now offer the most inviting field, and Southern manufactures, not less than Southern agricultural products, offer the surest and largest returns on liberal outlays of cash enterprise and skillful labor.

GEORGIA STATE LOTTERY .- The new regime has caused many changes, but none, perhaps, more noticeable than the past and present occupants o the building in Broad street known as the Elmore Insurance House. Before the war it was, as its name indicates, an Insurance building, but has since been occupied by the Georgia State Lottery. This lottery, however, is not liable to the charges usually made against these institutions, for it was organized for charitable purposes, and the ticket holder has an assurance of regaining his money, often with a considerable addition. The agency in Broad street has been fitted up for the purpose, and those who desire to try their luck in the wheel of fortune can obtain the tickets that will either angment or decrease their pile of ready money. There are few enterprises that are conducted with

a failure. The grand drawings take place during

this and next month, and parties wishing to realize

should invest at once. SERIOUS ACCIDENT ON . THE STREET CARS.-We have before spoken of the danger resulting from the practice of jumping from the cars while in motion, but little thought that a fatal example would so soon be given. Yesterday afternoon, while Conductor Armstrong's car was in Went worth street, near Pitt, a colored boy, about ten years of age, endeavored to jump from the front platform. Not understanding the art, he leaped backward, and fell, but instantly tried to regain his place, and might have been successful but for a basket which he had upon his arm, which re tarded his motions. He retained his hold on the hand rail, we learn, but was dragged under the car, and the forward wheel passed over his chest, crushing and mangling it terribly. The car was immediately stopped, but it was too late to do more than remove the sufferer. Mr. Armstrong promptly procured the attendance of Dr. T. B. MEMINGER, who did everything in his power, but the injuries were too severe, and death ensued in a few hours. No blame, as far as we could ascertain, can be attached either to the conductor or the driver, as no notification was given by the boy of his intention to jump off, and the car was immediately stopped as soon as the accident was

SEMI-ANNUAL EXAMINATION OF THE CHARLESTON COLLEGE.—Among the institutions of learning that are scattered throughout the State none rank higher than the College of Charleston. Fostered by the city, it gradually extended its sphere of use fulness, and at the opening of the war was both flourishing and prosperous. The rolls of its alumni contain the names of many whom the people delighted to honor, and whose proudest boast was to claim Charleston College as their Alma Mater. Notwithstanding the war and the changed condition of the country, the College is still prosperous. At first, when the exercises were resumed, it was found necessery to lower the standard of admission somewhat in order to accommodate those applicants whose studies had been interrupted by the war, but the students with commendable zeal have pressed forward, and the curriculum is now the dix, form 1), choose one of its members as chairman same as it was before that period.

At present the College has an attendance of fifty students, the majority of whom are Charlestonians, but a few are from the country, and have been induced to give this College the preference on account of the known character and reputation of the Faculty. It was thought at one time that he number of country students would be largely in excess, and though this has not been the case t is expected that the attendance will be muci better at the commencement of the next term. The College is not provided with dormitories, but arrangements could be easily made with residents of the city to accommodate boarders, and enabling students to finish their course at a moderate en

The semi-annual examination was held in the President's room, this week, the Senior, Sophomore and Freshman classes being examined. The exercises will conclude on Monday and Tuesday by the examination of the Junior class. The students showed throughout the examination (which was both oral and written) a complete knowledge of the questions propounded, and by their proficiency proved that they entertained no fear of being woolled.

DOG DAYS.

The miasma which generates epidemic fevers is now ising in clouds under the blazing beams of the dog-day un. Every living body, as well as refuse animal and regetable matter, emits unwholesome vapors, and in rowded cities and the dense assemblages which business and pleasure call together, the elements of disease are evolved. The pressure upon every vital organ is never so great as in the second and third months of summer, and common sense teaches us that these organs remire to be reinferced to meet it.

We hold our lives, so to speak, on a repairing lease, and this is the season when the process of dilapidaton is most rapid, and repairs are most required. Therefore, build mighty vegetable recuperant, HOSTETTER'S BITTERS. He who takes it may be said to clothe himself in sanitary mail, against which epidemic disease will hurl its poiso ous shafts in vain. This is no gratuitous assertion, but a great medical fact, attested by twelve years' experience in every climate of the habitable globe. Extremes of emperature always disturb the functions of the stomach, that the most dangerous maladies assail us. Tone them in advance with HOSTETTER'S BITTERS, and defy heat

HORSE POWERS. LITTLE GIANT HORSE POWER. THE LITTLE GIANT,

THE BEST, MOST COMPLETE AND CHEAPEST HORSE POWER MANUFACTURED.

In introducing this new Power into the market, we would state that the following are some of the advanages possessed by the "LITTLE GIANT" over all other lorse powers: Horse powers:

1. Its great strength on account of being double-geared, which not only doubles the strength by dividing the strain on twice the number of teeth, but by gearing on both sides of the wheels it equalizes the wear on the shafts, and materially lessens the friction, enabling the horses to do much more work than with any other

Power.

2. Its compactness and extreme portability, it weighing about one-half as much as other Horse Powers, and occupying but one-third the space, it can be packed in small boxes, thus saving much expense. It is so simple that the most ignorant person would have no difficulty in

utting it together.

3. The facility with which it can be adjusted to any ind of machinery at any angle, either on the ground or wer head, willout moving it from its foundation, will be appreciated by farmers and planters as specially adapt-d for driving Cotton Gins.
